Francisco Lopez-Morelos

Front-end Web Developer | Long Beach, CA - franciscolopezmorelos@gmail.com | LinkedIn

---

Reliable, fast-working, responsible, and efficient with any assigned tasks. Always learning something new that I can apply to the job to make my work easier. Can easily work with a team and can follow clear instructions. Eager to become a better programmer for my satisfaction and the benefit of my employer.

Education

Bachelor of Science, Computer Science - **California State University of Long Beach**   August 2020 - Current
- Relevant courses include (databases, Computer Science theory, Algorithms, etc.)

Certificates

Coding with Mosh: Helped me expand my knowledge of the fundamentals of the front-end web development path. Have fulfilled certificates for HTML, CSS, Javascript, and Typescript.

Experience

Administrative Assistant - *Future LB*, **City of Long Beach**   June 2024 - Present
- Developed useful networking skills that can be applied in any real-world interactions.
- Learned appropriate work behavior and respectful ways to work around any issues that may occur in a work environment.
- Provide general administrative assistance duties including filing, mail delivery, and providing phone customer service.
- Develop and facilitate digital files and participants.

Projects

Personal Portfolio

My personal website is used to store my projects and show my skills.
- HTML, CSS, JS

LocalLink

Collaborative website which was done as a team project. This was my very first attempt at trying to build a website as a front-end developer. It was challenging but really interesting.
- HTML, CSS, JS, Node.JS, MongoDB, Express, and Bcrypt

Technical Skills

- **Computer Skills:** Microsoft Office Software (Word, Excel, PowerPoint, Teams)
- **Programming:** HTML and CSS, Python, C++, JavaScript, TypeScript, Milligram framework, Git.
- **Languages:** English and Spanish
